Revenues for the third quarter of 2022/23 reaches 76.1 million euros, up significantly versus the previous year, with a successful Christmas season. Revenues were driven by the good performance of the two major games released at the end of the year: **A Plague Tale: Requiem** (October 18<sup>th</sup>) and **Evil West** (November 22<sup>nd</sup>), as well as by other strong selling titles from the portfolio, which were strongly supported by the launch of additional content.

78% of Group sales are generated via digital partners, with international business accounting for 93% of total Group revenues in the third quarter.

For the first nine months of 2022/23, Focus Entertainment reports revenues of 141.6 million euros, up 16% compared with the same period of the previous year. Thus, at the end of the first nine months of the year, in a very intense competitive environment, revenues reported are slightly above the Group's expectations.

Finally, the last quarter will see the release of the much-anticipated **Atomic Heart** by Mundfish, which will be launched on February 21<sup>st</sup>, and will close a year that is, at this stage, is looking good for the Focus Group.

Focus Entertainment is delighted with this performance, which is the result of the continuous hard work of its teams and underscores the validity of its strategic positioning, based on quality franchises developed within balanced budgets and capable of generating long-term revenues.
